## ▶ CREATIVE CONCEPT

This concept speaks to 'layers' in various ways. All geological materials such as metals, gemstones, clay, gravel, etc. come from the layers of the earth's crust. And mining helps form the primary layer upon which modern life is built.

## ▶ COLOR PALETTE FOR PRINT

This concept utilizes four color palette combinations geared towards their target audience. For each audience, the primary colors should be the only colors used overall. Secondary color can be used for splashes for color, for subheads, icons, callouts and calls to action.

### PRIMARY

The primary palette is the main palette used throughout the campaign. The primaries should be combined and used for headlines, backgrounds, and other design elements.

**T1**  
PMS: 7716 C  
CMYK: 83 / 22 / 47 / 2

**B1**  
PMS: 2768 C  
CMYK: 100 / 91 / 37 / 45

**W1**  
WHITE  
CMYK: 0 / 0 / 0 / 0

### SECONDARY

The secondary palette is provided as additional options complementary to the primary palette. The secondary colors are also designed to help communicate the unique attendee paths.

**G1**  
PMS: 354 C  
CMYK: 90 / 0 / 95 / 0

**B2**  
PMS: 2945 C  
CMYK: 100 / 68 / 18 / 5

**G2**  
PMS: 6193 C  
CMYK: 27 / 2 / 91 / 0

**Y1**  
PMS: 110 C  
CMYK: 15 / 32 / 100 / 0

## ▶ COLOR PALETTE FOR WEB

This concept utilizes four color palette combinations geared towards their target audience. For each audience, the primary colors should be the only colors used overall. Secondary color can be used for splashes for color, for subheads, icons, callouts and calls to action.

### PRIMARY

The primary palette is the main palette used throughout the campaign. The primaries should be combined and used for headlines, backgrounds, and other design elements.

**T1**  
RGB: 0 / 147 / 143  
HEX#: 00938F

**B1**  
RGB: 19 / 32 / 72  
HEX#: 132048

**W1**  
WHITE  
RGB: 255 / 255 / 255  
HEX#: FFFFFFFF

### SECONDARY

The secondary palette is provided as additional options complementary to the primary palette. The secondary colors are also designed to help communicate the unique attendee paths.

**G1**  
RGB: 0 / 171 / 84  
HEX#: 00A854

**B2**  
RGB: 0 / 88 / 144  
HEX#: 005890

**G2**  
RGB: 207 / 221 / 40  
HEX#: CFDD28

**Y1**  
RGB: 217 / 182 / 40  
HEX#: D9B628

MINEXPO<sup>®</sup>

## ► DESIGN ELEMENTS

### X Element

The X element can be used as a graphic addition as treated in these examples. Usage should be kept to a minimum and used only as an accent throughout the overall campaign.

### Triangle Shape

The triangle element mimics the shape in the MINExpo logo. This piece can be used to draw attention, signify important information or provide direction on signage.

## ► LOREM IPSUM

### Ribbon Treatment

the ribbon treatment in full color or outlined can also be used as an accent or background element. Usage should be subtle and not dominant throughout the campaign.

### ► **IMPORTANT NOTE**

When featuring the name of the show on deliverables, the first occurrence of the name should always be **MINExpo INTERNATIONAL® 2024**, with the registered trademark symbol and INTERNATIONAL in all caps.

For all other instances after this first use, the trademark symbol can be removed.

**MINEXPO®**

▶ IMAGE PHOTOGRAPHY

MINEXPO®

## ▶ IMAGE PHOTOGRAPHY

### Stock Imagery

The overall feel of the selected stock photos is emotional and industrial. The images may require adjustments to display a more vibrant and saturated appearance. Color tones are similar to the brand colors. Options below are shown to provide multiple ways to treat stock photos within the campaign.

### Brand colors and tones

Images should display an increased saturation and colors aligned with the MINE color palette.

### Color Overlay

Images set to multiply over a brand color to create an overlay effect along with graphic elements added to reinforce the mining industry.

### Close-up Images

Images are cropped tight to eliminate the need to identify branded equipment.
